RE: Tile Safe Products

To whom it may concern,

We have had a number of retail TDCT bank locations treated for Anti-Slip by Tile Safe Products for the safety of both staff and clients. The number of slip and fall incidents have decreased dramatically since we started using Tile Safe Products.

We had the Anti-Slip treatment applied to the floors in ABM vestibules and complete branches (depending on layout and requirements of each branch). After the branches have been treated it has been noted that the traction has been increased considerably.

I am very satisfied with the results of the anti-slip treatment and would definitely recommend Tile Safe Products as a vendor that goes the extra mile to continuously monitor their work and provide ongoing inspection reports, detailing the overall condition of the floor surfaces, which quickly eliminates any potential problems before they occur.

Thank you,  
CB Richard Ellis Global Corporate Services
